Personal Statement/Profile

A legal Compliance lawyer with over ten years' experience in various fronts. I have also served as a junior director of a vibrant private school. My personal mantra is this, "It is really important to take the opportunities when they come your way"

Maintaining a great and reputable alumni association draws me to the position of Secretary of the USIU Alumni Association. There are a lot of opportunities for fundraising and mentorship. I have a strong and friendly personality, excellent secretarial capabilities, and I can effectively plan, prepare and deliver to a very high standard. In me, you will find a secretary candidate who is committed to maintaining high standards.

Over the course of my Global Executive MBA (GeMBA), I got first-hand experience as the class president. The position allowed me to really gain an understanding of what is involved in all areas within USIU, and has enabled me to interact with faculty and students alike. I will actively be involved in student events and activities that will help to promote a healthy alumni association for all.
