Master of Business Administration in

Health Leadership & Management

USIU-Africa is accredited in Kenya by the Commission for University Education (CUE) & the United States of America by WASC Senior College and University Commission respectively.

PROGRAM DESCRIPTION

The MBA (Health Leadership and Management) program is developed for managers who need professional development and progression in the light of dynamic organizations in the Health Services Industry. The concentration will specifically equip graduates with a range of competencies, knowledge, skills, attitudes and problem-solving abilities to enable graduates respond to the need for successful management and leadership of health systems. This is expected to improve leadership of organizations in the health care industry and consequently bring about improved health outcomes in Africa.
It also provides an opportunity for participants to upgrade their management and leadership skills without necessarily travelling outside Kenya to pursue such studies.

LEARNING OUTCOMES

Upon completion of the Master of Business Administration - Health Leadership and Management program, students will be able to:

1. Analyze and interpret financial information for decision making.
2. Formulate, implement and evaluate firm strategies.
3. Evaluate entrepreneurial opportunities and develop strategies in a dynamic environment.
4. Exhibit leadership and ethical behavior in a diverse environment.
5. Conduct research in the field of specialization.
6. Embrace global practices.
